

SPECIAL LINES

SIMPLY PERFECT FOR WOOD

SPECIAL LINE SOLVENT

COLSPERSE

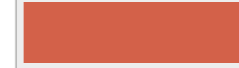

Our alternative that meets the most sophisticated demands of producers and users. The COLSPERSE are high concentrated metal-complex acid dyes, perfect for coloring wood, designed to be inserted immediately in the production cycle of the customer. Products are characterized by high concentration and excellent transparency which could achieve brilliant and uniform applications. These are versatile products which enjoy good solubility in water, glycols and alcohols, suitable to over coating with solvent and water-based cycles.

	CODE	DESCRIPTION
	COLSP031	COLSPERSE LEMON 4G
	COLSP030	COLSPERSE YELLOW 2R
	COLSP020	COLSPERSE ORANGE R
	COLSP083	COLSPERSE RED G
	COLSP080	COLSPERSE BORDEAUX 2B
	COLSP045	COLSPERSE BLUE R
	COLSP050	COLSPERSE BROWN 4R
	COLSP060	COLSPERSE BLACK R

SPECIAL LINE WATER

AQUACOL

Our alternative that meets the most sophisticated demands of producers and users. The AQUACOL are high concentrated metal-complex acid dyes, perfect for coloring wood, designed to be inserted immediately in the production cycle of the customer. Products are characterized by a high concentration, a substantial constancy of hue and a good light fastness which enjoy good solubility in water, glycols, alcohols and discreet in acetone. They are suitable to over painting with water cycles and, after application of a sealer, also in the solvent ones.
